

Sontara®

AUTOMOTIVE REFINISHING

1000003765

Maintenance Wipe/ EC Blue

- Super strong and absorbent.
- Stands up against dirt and grease.
- Great for mechanical work and engine repair.
- A disposable alternative to laundered shop towels.

ADVANTAGES

Safe in Use

Complete System

Low Cost in Use

Low Lint

Fit for Use

Sontara® Surface Preparation System offers the right wiping product for every stage of the refinishing process to achieve the high quality automotive refinishing you are looking for. The unique hydroentangling process from Sontara® uses thousands of high-pressure, needle-like jets of water to entangle the fibres into a Sontara® fabric that's strong and low-linting.

Reducing sources of lint or loose fibres can minimize the potential for paint defects. With Sontara®, you get great performance from start to finish.

PRODUCTION METHOD

Sontara®

RECOMMENDED APPLICATIONS

- Heavy-Duty Cleaning Tasks.
- Cleaning of mechanical parts and engine repair.
- Absorbing grease and oil.
